

## LARGE CROWD AT GEM SCHOOL FAIR

First Annual Event Draws Pupils With Children and Adults—Many And Girls Have Fine Exhibits on Display.

GEM, Oct. 2.—The first annual school fair held in Gem Colony on Thursday, September 26, was a huge success. A number of schools from neighboring districts were represented at the fair, and each school distinguished itself by taking back prizes won during the day's exhibition.

Great credit is due to the principal of Gem school, L. O. Burger. Although only recently appointed principal, he is responsible for the organizing and success of this, the first school fair held in Gem. With D. K. Douglas as president, Mrs. Benjamin and C. Douglas as vice-presidents, L. O. Burger as treasurer, and a large number of interested members of the community, excellent results have been achieved.

W. R. Dunn, of Claresholm Agricultural College was assisted by four other officials of the Department of Agriculture in judging the numerous exhibits. J. F. Boyer, school inspector, was assisted by F. Carr in judging school exhibits, while Miss Pokotilla, of Claresholm Agricultural College, judged the exhibits in domestic science.

A very interesting exhibit of Red Cross work which vividly depicted the activities of the society, was in charge of Rev. Dunn, of Calgary. The complete list of prize winners is given on page 5.

After the judging was completed a public meeting was held in the school room and was attended by a large number of parents and children. D. K. Douglas was chairman. Mr. Dunn spoke on the value of school fairs, complimenting the principal and his hand of workers on the very efficient way the Gem school fair was carried out, and also complimenting the school children on the very high standard of their exhibits.

Rev. Dunn also spoke on Red Cross work, encouraging all present to help the Red Cross in all its various branches, particularly in the aid to crippled children. His talk was followed by a singing contest. As there was a large number of entrants this aroused great interest and entertainment for everyone present.

In the evening a picture show, under the auspices of the department of extension, University of Alberta, was given to a large audience in the school. "The Siege of Quebec," also a Charlie Chaplin film, was shown, and adults and children thoroughly enjoyed both pictures.

School Fair Dance.  
On Friday night the fair was brought to a close by holding a carnival dance which was attended by an excellent crowd of dancers. Many were present from Hussar.

## Garnet Wheat Report Not Yet Ready

Ontario.—The report on the special shipment of Garnet wheat to Great Britain will probably not be made public until near the end of the year. It was one of the department of agriculture. It will require that length of time to gather all the data.

Growers contend there is no real reason why Garnet should not grade No. 1, as it has milling qualities that entitle it to be in the first grade. The special shipment was to get the opinion of millers themselves.

L. H. Newman, dominion cerealist, and F. J. Birchard, of Winnipeg, are back in Canada, but are awaiting further data before making their report. There will be no change in the grading conditions as to Garnet wheat for this year's crop. It was understood the test by British millers was encouraging.

## "The Air Legion" Provides Many Thrills

"The Air Legion," showing at the Gem Theatre Friday, and Saturday this week, October 4 and 5, is a thrilling, absorbing photo drama of life, love, and adventure, as seen by the pilots of the air mail service. Ben Lyon and Lya Mara, who play the principal roles, and the story is taken from the original written by James Ashmore Creelman.

"The Air Legion" is a tale of two pilots of the air mail service, and a woman both love. The action which accompanies the many adventures of the bird men, their flight with the elements, their daring escapades, the bitter rivalry of the two men trying to win the same girl, the plane burning in mid-air, and the leap to safety in a parachute with the girl he loves in his arms; the shadow of suspicion which he cast over one of the pilots who is branded as "yellow," and the thrilling climax, "The Air Legion" is a picture that is in a class by itself.

Monday and Tuesday next week, Oct. 7 and 8, the headline for the program is "The Model From Montmartre." It is a picture of love in the artists colony of Paris, throwing new light on the bright lights of the Montmartre.

"Dancing Vienna," with Ben Lyon and Lya Mara, is coming Wednesday and Thursday next week, Oct. 9 and 10. A pleasure-blinded boy and a jazz-dressed girl hitting the high spots until the strains of a love song opened their eyes.

Manager Ubertino has booked Greta Garbo in "Wild Orchids," for Friday and Saturday next week, Oct. 11 and 12. It is the fascinating story of a love-starved girl in Java—the glamour of far-off towering palms and shadowy forest forms.

## Hussar News

HUSSAR, Oct. 2.—The school fair held at Hussar on Friday, Sept. 27, was a marked success. This was the best fair held here in years, as the exhibits were outstanding. There was a very creditable showing of live stock, vegetables, and flowers, and a wonderful display of art, sewing, cooking, and all kinds of school work usually exhibited. The impressively shown in developing the spirit of citizenship was quite commendable. The Hussar school put on a good drill. The singing and declamatory contests were completed for by candidates of several schools, and were carried out in a manner to show that the contestants had been well drilled for their parts.

A large and appreciative crowd gathered to view the exhibits, listen to the program, and watch the teachers' race was a new feature.

The official judges were: W. R. Dunn, S. O. Hiltner, and Miss O. M. Pokotilla, of Claresholm, and F. J. Buchanan, inspector of schools, Calgary.

## Local News

Mr. Armstrong, of Stanton, visited her daughter, Miss Melba Armstrong, the first of the week, and went to Calgary Wednesday as delegate to the provincial convention of the W. C. T. U. in the First Church of the Nazarenes. Miss Melba Armstrong went up on Thursday to take part in the educational contest on Thursday evening. As she has won the gold and grand medals in former W. C. T. U. contests, she is contesting for the diamond medal.

F. J. Muller, attending on Saturday, and Wm. Kuehle on Saturday. Almost all the threatening is done, the grain averaging over 16 bushels to the acre, mostly No. 1 or No. 2.

Rev. H. E. Gordon has moved into his new residence.

Miss Zona Bell and Miss Roberta Clark, motored over from Acone to spend the week-end with Mr. and Mrs. E. J. Bell, Bruce Bell, and

## Postal Department Agrees To Continue Old Mail Service

Early Morning West Bound Train Again Takes Mail

When the new C. P. R. passenger train schedule came into effect on September 28th, the early morning west bound train, which passed through Bassano about 5:00 a.m., stopped to leave off and take on mail. The postal department had planned to discontinue Bassano's mail service on this train, but upon urgent request from the local Board of Trade the postal department agreed to give the same service. It has done in the past.

The department's postmaster, Geo. Travis, said mail service would be given on this train whenever it stopped at Bassano, but could not guarantee that this would be every day, as Bassano is not a scheduled stop for this train. The train has, however, stopped here every day so far for coal and water, so the there has been no interruption in the mail service.

Owing to the arrival of the afternoon main line east bound and west bound trains within an hour of each other, the post office makes up its east bound branch line mail a half hour earlier—at 5:30 p.m.

Miss Nellie Brieseman, who are attending normal school in Calgary, also joined the party.

"The Hussar Ladies' Aid and Women's Institute jointly are entertaining the L. A. and W. I. of Chancellor and Standard on Saturday.

The Girls Club is putting on the play, "The Last Chance," at the Community Hall on Friday, Oct. 25, and will follow this with a dance.

Mr. and Mrs. E. F. Maurer, of Bassano, were guests at the Wm. Kuehle home on Sunday.

Miss Olive Barrier has left Hussar and gone to Calgary.

Jack Humphries spent the week-end in Calgary.

## Gem News

GEM, Oct. 2.—Mr. and Mrs. Rumble, with Mr. and Mrs. Maguire and Irene, spent a pleasant Sunday, guests of Mr. and Mrs. Leslie Douglas.

Ed. Johnson was in the Colony the past few days and attended the school fair.

Mr. and Mrs. B. Benjamin and Mrs. C. Vint, spent a pleasant week-end in Calgary.

Mrs. Leslie Douglas is enjoying a visit from her father and sister, Mr. and Mrs. Mildred Miller, of Millerville.

On Tuesday morning Ben Keeling was successfully operated on for appendicitis in the Bassano Hospital.

Mrs. Small and children returned from Banff on Monday evening feeling much better for the holiday.

C. Vint was in the Colony on Monday, returning with the train on Monday during the day.

Mr. and Mrs. Walter Peake have had the pleasure of a visit from Mrs. Peake Sr., of Dorothy district.

Mr. and Mrs. Hughes spent a few hours in the Colony on Sunday last, guests of Mrs. Keeling.

Miss M. Ferguson, of Coonstons, is enjoying a week or two with Mrs. J. Lawrie.

G. Deickman, with Freda and Dale, returned to the Colony on Saturday last.

## TO HOLD HALLOWEEN MASQUERADE NOV. 1st

A Halloween masquerade dance will be held in the Hussano Masonic Community Hall on Friday evening, November 1st.

Prizes will be awarded for the best fancy and comic costumes. The local branch of the Women's Institute has undertaken to serve the lunch.

## Hunter Hotel Changes Hands

T. H. Hunter Has Sold Hotel to L. Y. Birnie, of Medicine Hat

The Hunter Hotel was sold last week to L. Y. Birnie, of Medicine Hat. T. H. Hunter, who has operated this hotel for the past eighteen years, closed the deal last week, and the new proprietor took over the business on Friday, Sept. 27th.

Mr. Birnie comes from Medicine Hat; where he was manager of the Medicine Hat Brick and Tile Co. In this business he was associated with the late A. O. Creelman, well known contractor, who built the bridge for the new C. P. R. railway branch at the Bull Pound. It was the Medicine Hat Brick and Tile Co. that supplied the brick for the Hunter Hotel when the building was erected in 1911. Mr. Birnie's management of the hotel company dates back to that time, so in purchasing the Hunter Hotel he is buying back the brick he sold eighteen years ago.

The new proprietor plans on making improvements throughout the building, such as decorating the walls and varnishing the woodwork, etc.

To Open Dining Room.  
Mr. Birnie plans to operate the hotel dining room, and expects to open it within a couple of weeks.

Certain changes and alterations are planned before the dining room is put into operation, and when these are made the dining room will be opened and Mr. Birnie will then be prepared to give his guests complete hotel accommodation.

The new proprietor has had considerable experience in the hotel business, having owned three hotels before coming to Bassano.

Mrs. Birnie, who is now in Medicine Hat, will join her husband in Bassano within a week's time.

The new proprietor plans to give the public the best service and accommodation it is possible to give in Bassano.

## Artists in British-Canadian Concerts

Florence Hood

Mary Frances James

Stanley Maxted

Greta Garbo in "Wild Orchids"

Hart House Quartette

Ben Lyon and Lya Mara in "Dancing Vienna"

Brilliant entertainers are to be heard this fall and winter in a nationwide chain of musical centres throughout the Dominion, sponsored by the Canadian Pacific Railway. They will appear in a series of six concerts, the outgrowth of the Music Festival, now internationally known, which have been staged by the Music Department of the railway. Each of these concerts will be given at Toronto, Winnipeg,

Tense drama, replete with action and thrills. Garbo at her best.

A PASSED "U" PICTURE

**Auction Sale of 1500 Sheep at Bassano Stock Yards, Friday, October 11th.**  
Pure Bred and Grade Sheep. Sale Starts at 1:00 o'clock. J. Dodds, owner; B. T. Gray, auctioneer.

## Amery Confident Russian Relations Will Not Affect Canadian Grain Trade

Ottawa.—Canada's wheat trade would not be imperilled by the restoration of trade relations with Russia by the Labor Government in Great Britain for some years at least, Right Hon. G. M. Amery said, "that there will be surplus wheat to export for some years to come. The Russian farmer is probably only raising enough for his own needs." According to Amery, Russia would not constitute a competitive factor in the wheat market. Just how imminent was the possibility of a resumption of trade relations between Great Britain and Russia, Mr. Amery could not say.

The present deteriorated condition of Russia under the Bolshevik regime, it is highly improbable, Mr. Amery said, "that there will be surplus wheat to export for some years to come. The Russian farmer is probably only raising enough for his own needs." According to Amery, Russia would not constitute a competitive factor in the wheat market. Just how imminent was the possibility of a resumption of trade relations between Great Britain and Russia, Mr. Amery could not say.

## Grant Priority To Dominion Taxes

Provincial Claim In Bankruptcy Is Second Says Supreme Court

Ottawa, Ont.—The Supreme Court of Canada, in a judgment handed down, held that claims for Dominion taxes had priority over claims for provincial taxes. The appeal was taken on behalf of the attorney-general of Canada and opposed on behalf of the attorney-general of Quebec.

The action arose out of a bankruptcy matter. Both the Dominion Government and the Quebec authorities had a claim against the insolvent firm. The firm had failed to pay both taxes in full. It then became a question as to which claim took priority.

The trustee in bankruptcy, in his dividend sheet, gave priority to the claim of the Dominion and in that he was sustained by the trial judge, Mr. Justice Parnett. The court of King's Bench held, Mr. Justice Gauthier dissenting, that the Dominion should rank concurrently. From that decision the Dominion appealed to the Supreme Court of Canada.

## New Zealand Showing More British Pictures

Quota Has Been Set By Regulations Of Government

Wellington, New Zealand.—A greater proportion of British moving pictures will be shown in New Zealand in the future, according to new government regulations. From October 1, exhibitors will be bound to screen a fixed quota of British films. The government says it has been assured ample supply of both talking and silent films from British studios will be available during the coming year.

## Hon. Herbert Marier Honored

Tokio.—The Canadian Ambassador in Japan had his first public function, when he banquetted Canada's first minister to Japan, Hon. Herbert Marier, and the members of the legation staff. The guests included the British ambassador and Mr. Tokugawa, Japanese minister to Canada, the American charge d'affaires, prominent Japanese officials and 125 others.

## Betting On Pension

Edmonton.—Supt. James Ritchie, of the Royal Canadian Mounted Police, at Edmonton, has announced his resignation to take effect shortly. He has been in charge of the Northern Alberta district for the last six years. He has been in the Mounted Police for the last 38 years and is now retiring on pension.

## Favors Canadian Flag

Nanaimo, B.C.—After debating for more than an hour whether or not Canada had a distinct national flag of its own, the British Columbia School Trustees' Association decided that she had not, and that the proper authorities should be informed that the association favored a distinctive emblem.

## Russia Warns China

Moscow.—The Red Army would immediately and decisively act against any further Chinese attacks and raids on the Russian population along the Manchurian frontier, Generalissimo Joseph Stalin said, in a warning note sent to China by the Russian government through the German foreign office.

W. N. O. 1935

## Issue Interesting Report

Grain Commissioners Publish Baking Tests Of 1935 Flour

Winipeg.—Low weight per bushel, lower flour yield, higher protein content; lower water absorption of the flour and excellent baking quality and features of a preliminary report on the milling and baking characteristics of western Canadian 1935 wheat crop, issued by Dr. P. J. Birch, chairman of the Board of Grain Commissioners for Canada, and his assistant, T. R. Aiken, are the findings of a report, "Milling and Baking Tests Conducted at the Dominion Grain Research Laboratory, in Winnipeg," indicate that, on the whole, the milling yield is inferior, but the baking quality for grade, is fully equal to if not superior to that of last year, states Dr. Birch, in the report. The effect of frost and immaturity is not a serious consideration as was the case last year; practically all the wheat crops were well developed, each grade contains an increasing number of undeveloped kernels and, consequently the weight per measured bushel would appear to be the chief factor in determining the grade.

## LABOR PARTY IN ONTARIO HAS ENTERED LISTS

Toronto.—The Ontario Labor party officially entered the lists for the coming election when it issued as the first step of its campaign, a manifesto giving the following by way of a minimum program: Unemployment insurance. Extension of the public ownership principle.

A law to permit the election of police commissioners. A liquor referendum. Compulsory public liability automobile insurance.

Amendments to the Old-Age Pension and Mothers' Allowance Acts. The manifesto criticizes Premier G. Howard Ferguson, leader of the Conservative party, for bringing on an election for the purpose of appeal to the country. Posing as an advocate of responsible government he has not thought fit to use the British method where the premier announces on the floor of parliament before the elected representatives of the nation that on a certain date an election will be held.

The Labor party has always stood for the discussion of the liquor problem free from party politics, says the manifesto. "It recognizes that the solution of the problem is the taking of the manufacture of liquor away from private capitalists. If there is to be government control, it must not be done by the retail sale of liquor but also of its manufacture. It is therefore of the opinion that in a question like the liquor issue, where centuries of prejudice exist on both sides, the question should be submitted to the people in the form of a referendum."

## Edison's Pupil Visits Canada

London, Eng.—It has been announced that the famous "Wizard of the Looney," is making a tour of Canada. The film is the property of Dr. Gustin Madlock, who, as an army staff photographer, was in charge of it. It was while he was in that the picture was removed for safety and now it cannot be discovered. The film was one of the most historic in the world.

## Famous Film Missing

London, Eng.—It has been announced that the famous war film "The Battle of the Somme," is missing. The film is the property of Dr. Gustin Madlock, who, as an army staff photographer, was in charge of it. It was while he was in that the picture was removed for safety and now it cannot be discovered. The film was one of the most historic in the world.

## Denies Drigbites Are Obsolete

London, England.—Emphatic denials of the statements in London newspapers that the drigbites now under construction for the British Government—the R-100 and the R-101—were obsolete, was made by Commander Sir Charles Murray, head of the Airship Guarantee Company which is building the R-100.

## Birds Lured To Death

Toronto.—Lured by the brilliance of the beacon at Long Point, on Lake Erie, near Port Rowan, more than 100 song birds migrating to warmer climes for the winter, met death recently. Flying through a fog at night, they were lured by a bright light and dashed to death against the walls of the lighthouse.

## CHAIRMAN OF ROYAL COMMISSION

Colony For Doukhobors

Two Hundred and Fifty Members Of Sect Transferred From Jail To Colony In B.C.

Nelson, B.C.—Some 250 Doukhobor men, women and children who have been confined to the provincial jail here, were transported by the provincial police to Porto Rico. Porto Rico is a former Christian community, named after the saint, situated about 15 miles south of Nelson. Last Friday when these Doukhobors were camping on the outskirts of the city, Peter Vergin offered this old camp site to the Doukhobors as a permanent habitat. Starting early in the morning trucks and buses carried loads of prisoners from the jail to Porto Rico until 4 p.m., when all the Doukhobors had been safely landed. Each bus in addition to the prisoners, carried a couple of deputies to preserve order if necessary. This measure was not necessary.

When all had arrived at the camp it was noticeable that many of the Doukhobors were directly started by the Doukhobors from among the camp buildings. The majority of the buildings at the colony are windowless and doorless, and the more industrious of the Doukhobors began to repair their future homes to protect them against the cold nights that are setting in.

## Will Remain In Canada

No Truth In Rumor That Sir Henry Thornton Was Leaving

Ottawa.—Sir Henry Thornton will remain in Canada as president of the Canadian National Railways. Any doubt on this point was settled by Premier Mackenzie King, following a recent meeting of the cabinet. In the absence of Hon. C. A. Dunning, director of railways, who is in the West, the Prime Minister was unable to say whether or not a renewal of Sir Henry Thornton's contract with the government had been signed.

There was no question, however, about Sir Henry remaining in Canada, the prime minister said. Recently there have been rumors that the president of the Canadian National might go to England.

## Ban Religious Holidays

Soviets Dismiss With All Religious Holidays, Including Sundays

Moscow.—All religious holidays, including Sundays, are abolished under the new 24-hour system of labor introduced throughout the Soviet Union. Workers are given one day of rest every five days.

The only holidays not abolished are October 25, anniversary of the October revolution; January 9, anniversary of Lenin's death; May 1 and 2nd, international days of labor celebrations.

## Tariff Board Application

Ottawa.—Initiation of investigations based on ten or more new applications will restore the first full sittings of the tariff advisory board which will open on Tuesday, October 29. The board will consider the duties and the commodities that will come under review at the hearings, which will extend over two weeks.

## Grain Embargo

IS REQUIRED TO EASE CONGESTION

Winipeg.—Serious congestion in the lake heads' main grain elevators brought suggestion that the placing of an embargo on western grain shipments appeared to be the only remedy to the situation.

Port Arthur and Port Arthur terminal elevators, with a storage capacity of 50,000,000 bushels today are housing practically 70,000,000 bushels, leaving a comparatively small storage space; through which to move the incoming crop.

Lack of demand for Canadian grain in the world markets and the resulting congestion at Montreal, responsible for the situation at the head of the lakes, and railway authorities here intimated that the placing of an embargo probably will be necessary.

E. H. Emmsy, chairman of the board of grain commissioners, commenting on the situation, said an embargo seemed to be the only remedy.

A similar situation arises every fall, pointed out the grain board chairman. He indicated, however, that last year at this time the shortage of cars to handle the heavy traffic had been the cause of the nature of an embargo, preventing progress of grain to the lake heads. This season, with sufficient cars available to move the wheat east of Port Arthur and Port Arthur elevators are reported plugged almost to capacity, while harbor conditions do not point to an early rush east of lake boats.

## Colony For Doukhobors

Two Hundred and Fifty Members Of Sect Transferred From Jail To Colony In B.C.

Nelson, B.C.—Some 250 Doukhobor men, women and children who have been confined to the provincial jail here, were transported by the provincial police to Porto Rico. Porto Rico is a former Christian community, named after the saint, situated about 15 miles south of Nelson. Last Friday when these Doukhobors were camping on the outskirts of the city, Peter Vergin offered this old camp site to the Doukhobors as a permanent habitat. Starting early in the morning trucks and buses carried loads of prisoners from the jail to Porto Rico until 4 p.m., when all the Doukhobors had been safely landed. Each bus in addition to the prisoners, carried a couple of deputies to preserve order if necessary. This measure was not necessary.

When all had arrived at the camp it was noticeable that many of the Doukhobors were directly started by the Doukhobors from among the camp buildings. The majority of the buildings at the colony are windowless and doorless, and the more industrious of the Doukhobors began to repair their future homes to protect them against the cold nights that are setting in.

## Ballon Found Unmanned

Believed To Be One Piloted By French Flyer

Paris.—A tragedy of the air was indicated as a balloon without passengers floated to the ground near Vancouver, Jugo-Slavia. The Aero Club of France was asked the balloon carried the club's flag, and that blood spots were found on the basket. An engine, weighing 500 meters (about 1,600 feet) was found by peasants nearby.

It was believed the balloon was the one in which Paul Nougat left St. Cloud, near Paris, to compete in the recent Coupe de la Coupe race. The place where the bag was found is 850 miles from Paris.

## Convicted Of Manslaughter

Mrs. Pantages, Wife Of J. A. Pantages, Found Guilty By Jury

Los Angeles.—Mrs. Lois Pantages, wife of the theatrical magnate, was convicted of manslaughter by a jury which heard her trial on a charge of second degree murder.

The jury of five women and seven men made no recommendation for leniency. The sentence for manslaughter is fixed by California law at 10 to 15 years in the state penitentiary. Three women jurors wept as the verdict was read.

Mrs. Pantages was charged, following the death of her husband, killed when their automobiles collided last June.

## GRAIN EMBARGO IS REQUIRED TO EASE CONGESTION

Winipeg.—Serious congestion in the lake heads' main grain elevators brought suggestion that the placing of an embargo on western grain shipments appeared to be the only remedy to the situation.

Port Arthur and Port Arthur terminal elevators, with a storage capacity of 50,000,000 bushels today are housing practically 70,000,000 bushels, leaving a comparatively small storage space; through which to move the incoming crop.

Lack of demand for Canadian grain in the world markets and the resulting congestion at Montreal, responsible for the situation at the head of the lakes, and railway authorities here intimated that the placing of an embargo probably will be necessary.

E. H. Emmsy, chairman of the board of grain commissioners, commenting on the situation, said an embargo seemed to be the only remedy.

A similar situation arises every fall, pointed out the grain board chairman. He indicated, however, that last year at this time the shortage of cars to handle the heavy traffic had been the cause of the nature of an embargo, preventing progress of grain to the lake heads. This season, with sufficient cars available to move the wheat east of Port Arthur and Port Arthur elevators are reported plugged almost to capacity, while harbor conditions do not point to an early rush east of lake boats.

## Forke Announces Further Reduction In Entry From Non-Preferred Countries

### No Canadian Race

But Bureau of Statistics Accepts "Nationality-Canadian"

Ottawa.—There is a Canadian nationality but no Canadian race, and any government form filled with nationality as "Canadian" is accepted, it was learned at the Dominion Bureau of Statistics.

Complaint was made in Toronto of a father who three times entered his child as Canadian and the form was returned, Ottawa being blamed. It is pointed out here that the vital statistics forms are made to the provincial authorities and not to Ottawa.

The new form was returned because the form was termed Canadian, it must have been returned by the provincial authorities. The Bureau of Statistics accepts "Nationality-Canadian," but also accepts racial origin, which has nothing to do with nationality.

## Discuss Coal Prices

English Mine Owners Consider Question For Canadian Trade

London, Eng.—A dozen large coal mine operators of the country met at the home of the Hon. J. H. Thomas, at the treasury, to discuss the question of prices of coal for the Canadian trade. The minister for commerce who has just returned from Canada pointed out the great importance of the Dominion for British exporters. It was stated the denatation was not officially recognized the mining association of Great Britain, but it was a fact that Evan Williams, chairman of the association and W. Lee, its secretary, were among those present. No statement was issued immediately.

## SUNDAY SCHOOL LESSON

OCTOBER 6

### RECOGNIZING OUR DEBTS TO OTHERS

Golden Text: "Not looking each of us to his own things, but each of us to the things of others." Philippians 2:4.

Scripture: Nehemiah 4:15-25; Mark 12:34; Romans 13:1-7; Philippians 2:1-8; Colossians 3:12-14; James 4:1-10.

Devotional Reading: Psalm 137.

### Explanations and Comments

Recognizing Our Debt To Others. Most of us have a little of the spirit of standing by, and know that Jesus has answered wisely the question put to him by the Pharisees: "What is the first of all?" Jesus answered by quoting Deuteronomy 10:17: "The Lord is one, and he will have the Lord thy God with all thy heart, and with all thy mind, and with all thy strength; that is, with all thy power." In these terms, interpreters recognized the language of a primitive psychology, an attempt to divide human nature into three parts: the intellect, the emotions, and the will, and strength of will. But that may be thought of as the suggestion of a division of human nature, and it is manifest that the words are intended to claim for God the highest place in all his creation, and in all his history.

"The second is," continues Jesus and quoted Lev. 19:18: "Thou shalt love thy neighbor as thyself." The chief service rendered by Jesus to this second commandment was to associate it so closely with the first that the two became one. The two commandments he put apart with no indication of any connection between them. But he brought them together in such a manner as to show that they have a common relation to each other. In reality they are two commandments, and so closely are they connected that they cannot exist, or at all events cannot have a separate existence, apart from each other. Jesus stated the principle of the two commandments in Deut. 10:17-18: "What does it profit, my brethren, if Jesus said the words literally, what does it profit, if a man say he both faith, but doesn't work? Can he both say 'I save him?' When Robin says, 'What we think, or what we know, or what we believe is in the end, the only consequence is the only thing of consequence is what we do.' He is speaking of a mere doctrine, a barren belief that does not lead to action, and so he says, 'What we do, that is what we have.' 'What doth it profit if a man say he hath faith, but have not works?' Moreover, the 'faith' referred to is not a mere intellectual assent, but a faith which is expressed in the 'deeds' (Deut. 10:17-18). 'Hear, O Israel: we believe in one God, and in one God; this was the fundamental principle of Jewish faith, and it is this to which reference is made, and not the Christian faith, which contains the essence of the Jewish faith.'

## Grain Stored At Vancouver

Statement Shows Over Seven Million Bushels In Elevators

Vancouver.—Grain in storage in Vancouver elevators has reached a total of 7,285,000 bushels, a figure more than five times greater than the corresponding one for 1928, according to a statement issued by the merchants' exchange.

## Exhibiting Canadian Pictures

Ottawa.—Four pictures from the National Gallery of Canada will be shown in the city. The pictures are the work of the Italian artist, which will be held at the Royal Academy early next year. The exhibition is to be one of the most comprehensive ever held, embracing Italian art from the 12th century to the present day.

## Mashed But Large Surplus

Winnipeg.—A surplus of \$20,000,000 for the grain crop ended April 30, 1929, was announced by the provincial government through Hon. W. J. Maher, attorney-general, in the absence of Premier Hughes. The surplus is the largest in the history of the province.

## Adjourns Youth Session

Geneva.—The assembly of the League of Nations on September 29 adjourned its tenth annual session. The assembly is to be held in Geneva, the most consecutive and progressive during the ten years of existence of the league.

(194)

In commemoration of the ill-fated d'Amville expedition which occupied the shores of Bedford Lake in 1744 and in which d'Amville and many of his men died of illness, His Honor, Lieutenant-Governor, Mr. J. H. McCreary, unveiled a monument erected by the Historic Sites and Monuments Board of Canada at Rockingham, N.B., recently. Many distinguished guests attended the ceremony.

Total quantity of strawberries exported from Nova Scotia to the United States during the present season was 7,364 crates with 32 boxes to the crate. The bluest berry crop of the province has obtained record proportions, 20,914 crates having been shipped to Boston so far this year, with another month to go, as compared with 17,442 crates for the whole season of 1931.

**Howard of Hesperia**  
Dentist (to his vicar in chair)  
"After your powerful sermon last Sunday on 'The Beauty of Truth' I cannot tell a lie. No - this will hurt."  
**First Fond Illusions**  
The sister: "Captain Randall proposes in this letter. I wonder if he really loves me—he's only known me a week."  
The brother: "Oh, then, perhaps he does."

**Down to Brass Tacks**  
Before I married Maggie dear I was her pumpkin pie.  
Her precious peach, her honey lamb,  
The apple of her eye.  
But after years of married life  
This thought I pause to utter,  
Those fancy names are gone, and now  
I'm just her bread and butter.

**If the Russians and Chinese resume active hostilities we will have to learn those triple plaited names all over again.**

A cheerful grin may let you in where a frow was never known, but a timely cry may get you by when hubby holds out on the dough.  
Verily, the moth that feasted on the flapper's summer garments will surely starve to death.  
—Halmore Enterprise

From out of the frozen north comes the story of how an Eskimo murderer was disposed of by shooting him under the river ice. Not a bad idea, at that.

**WHAT OF SEWAGE DISPOSAL?**  
In the special magazine section of the Calgary Herald last Saturday there appeared an article written by A. S. Chapman, City of Calgary engineer. The writer reviewed the work accomplished and under way by the Calgary public works department during 1931. It told of the building of storm sewers, side walks, street paving, etc., but not a word was mentioned concerning the building of a sewage disposal works.  
Calgary must, by order of the provincial Department of Health, build a sewage disposal plant costing approximately \$750,000, to prevent the pollution of the Bow River from which Bassano gets its water supply. The complete disposal plant is to be finished in five years, and at least one unit must be built each year, beginning with 1932.

There appears to be a shroud of mystery surrounding the plans for Calgary's sewage disposal works. The question is now mentioned in the Calgary public and even some of the city fathers appear to know almost nothing about it.  
To tell the truth, the Calgary must build one unit of the disposal works this year. The city has not yet started work on the disposal plant, nor has it been made known when the work will start. No explanation is given for the delay, and the situation is causing no little concern among Bassano citizens, who have waited many years to have this wrong adjusted.

**A GOOD SCHOOL FAIR**  
The Gem school fair "went over like a hot pie" in other words, the event was very successful, and exceeded the expectations of even those who were responsible for its organization.  
It was the first school fair held in Gem, and some of the citizens of the district were somewhat dubious as to whether it could be financed, and whether it would be popular. The results of the fair were highly pleasing, and proved the fears of the "naysayers" were unwarranted. A large number of children and adults from Gem and neighboring school districts attended the fair; the exhibits were splendid; the financing was managed quite nicely. It was a very good fair. Furthermore, the school fair idea has taken hold in Gem, and a bigger and better fair is planned for next year.

**THE NAILS MOVE AGAIN**  
Following an urgent request from the Bassano Board of Trade, the postal department has made arrangements for the early morning west bound train to continue leaving off and taking on mail as it has done in the past. Beginning with the new C. P. R. passenger train schedule, which came into effect Sept. 29th, the mail service was to have been discontinued on this train as far as Bassano is concerned.  
It is pleasing to note that the postal department has re-arranged the mail service to suit public convenience, and that the request coming from Bassano met with such prompt attention.

**ON SERVING THE PUBLIC**  
A peculiar condition exists regarding the passenger service on the early morning west bound train. This train stops for coal and water, picks up the mail, but passengers are not permitted to get on, although the train carries a day coach. The train is not scheduled to stop at Bassano, but so far it has done so every morning.  
Not to allow passengers to board this train at Bassano is most unfair. Many people would use it if permitted to do so, and often it would be far more convenient than waiting for the late afternoon train. It always stops in Bassano anyway. By refusing to take passengers the C. P. R. is depriving the public of a service that is a great convenience and a time saver.

**For the Long Evenings**  
You will need good lights  
**COLEMAN LAMPS**  
The Coleman lamp is almost a necessity in the country home where you cannot get electricity. No lamp globes to clean, no wicks to trim. This lamp is absolutely safe.  
  
**Edison Mazda Lamps**  
We have them in all sizes, 15, 25, 40, 60, 100, 150 and 200 Watts. Why be without them when you can get them so cheap?  
**Radio Batteries**  
Get your radio in shape, now is the time to do it. Layerbuilt B. batteries, C. batteries and wet batteries. VX201A & VX201B tubes.  
**FLANAGAN BROS. HARDWARE**  
Telephone 118 BASSANO

**HEALTH SERVICE of the CANADIAN MEDICAL ASS'N THE HEART**  
The heart is a most important organ which acts as a pump and thus keeps the blood moving throughout the body. Any unusual condition of one part or organ of the human body may result in the upset of other organs, such as the heart, with perhaps some permanent damage.  
Pain in the region of the heart does not always mean heart disease. It may be due to some heart condition, but it is much more frequently caused by some condition of the stomach, such as improper digestion of food. Usually the first symptom of the heart's being below par is shortness of breath on slight exertion.  
In old age it is not unusual to find that the heart is not doing its work as well as it did. This is part of the general wearing out of the tissues, and means that life must be regulated so that neither at work nor at play is the heart given more to do than it can accomplish without exhaustion. Persons, young or old, who have a weakened or damaged heart, can live long lives of usefulness, providing they avoid doing such things, as heavy lifting, which throw a sudden strain on the heart. They must also avoid these activities which cause shortness of breath or pain, always stopping immediately to rest when symptoms appear. Exercise in the form of work or play which does not cause symptoms is usually of benefit.  
The most common cause of heart disease in young people is infection. The germs which settle down in diseased tonsils, adenoids, throat, etc., very often travel around the body. They may, and very frequently do, attack the heart. The heart may also suffer from the germs in such diseases as diphtheria, scarlet fever, and influenza. Damage to the heart is a comparatively common result of acute rheumatism. Syphilis is also an infection which is very liable to attack the heart and blood vessels. The removal of infected parts, such as diseased tonsils, and the avoidance of infection, are the basis of the prevention of heart disease.

# PRIZE WINNERS AT GEM SCHOOL FAIR

## Special Prizes

Pair of boy's suits, value \$5.00, donated by Curtis & Miller, Ltd., given to girl winning highest number of points in athletics, won by Arthur Galarneau, Galarneauville school.

Pair girls' skirts, donated by Flanagan Bros., value \$5.00, given to girl winning highest number of points in athletics, won by Mae Colburn, Galarneauville school.

40 pounds flour, donated by Ogilvie Flour Mills, Ltd., for best cake, won by Myrtle Pollock, Gem.

24 lbs. flour, donated by Ogilvie Flour Mills, Ltd., for second best cake, won by Iris Robinson, Gem.

Royalship pencil, donated by A. T. Connolly, for best high school writing, won by Gladys Fortney, Gem.

Royalship pencil, donated by A. T. Connolly, for best public school writing, won by Jack Colburn, Galarneauville.

Fountain pen, donated by Garbutt Business College, for one having best maps in high school, won by Margaret MacLeod, Gem.

\$1.50 merchandise, donated by Louis Conn, for best maps in grades 7 and 8, won by Agnes Gurdueks, Connorsville school.

\$1.50 merchandise, donated by L. Conn, for best maps in grades 5 and 6, won by Jappy Douglas, Gem.

Football, donated by P. W. Oshorne Co., Calgary, for school winning highest number of points in relay race, won by Galarneauville school.

Gold ring, donated by Henry Bix & Sons, Calgary, to girl winning the highest number of points in cooking, won by Myrtle Pollock, Gem.

Box of chocolates, donated by T. A. Cuddy Co., Medicine Hat, for best collection of canning, won by Myrtle Pollock, Gem.

Handball glove, donated by E. N. Meyer, to winner of hop, step and jump, open class, won by John Douglas, Gem.

\$5.00 worth phonograph records, donated by Mason & Hinch, Calgary, for one winning singing at concert, won by Irene Granger, Gem.

Box of candy, donated by J. W. Bulmer, to child winning writing prize in grades 1 and 2, won by Barbara Atkins, Gem.

Two Chinilla rabbits, donated by R. H. Morris, for highest number of points in live stock, won by John Tate, Galarneauville.

Ten pounds butter, donated by Bussano Creamery, for best dairy butter, won by Winifred Martin, Gem.

A prize donated by the Department of Education to pupil winning the highest number of points on exhibits in classes 80 to 121 inclusive, won by Albert Galarneau, of Galarneauville school.

A prize donated by the Department of Education to school obtaining the highest number of points per pupil enrolled on March 15 on the entries of agriculture and home economics classes, won by Gem high school.

Colin Douglas and Myrtle Pollock, both of Gem, qualified for the special short course at the Chesholm school of agriculture in July 1930. This course is given by the Department of

## Antiquities to the boy and girl winning the highest number of points in agriculture and home economics.

Galarneauville won the Department of Agriculture diploma for school winning the highest number of points per pupil in agriculture and home economics.

## Donations

In addition to the special prizes already listed, the following donations were made:

Distributors Ltd., 110, T. Eaton Co. Ltd., \$5.00 merchandise; J. Corney, Gem; W. J. Smith, Bassano, 21; J. H. Miller, Bassano, 45; merchandise; Dr. A. G. Scott, Bassano, 45; A. McKee, Bassano, 8; J. H. Smith, Bassano, 45; Crown Leather Co., Huxford, 25; J. H. Smith, Bassano, 45; J. T. Shaw, M. L. A., Calgary, 45; Bill Wilson Co., Calgary, any cap in store.

## Garden Products

Class 1, Carrots, 1 Mabel Douglas, Gem; 2 Colin Douglas, Gem; 3 Earl Douglas, Gem.

Class 2, Beets: 1 Mabel Douglas, Elsie Bergen, Gem; 3 Jacob Brucks, Gem.

Class 3, Parsnips: 1 Mabel Douglas, Gem; 2 James Spark, Gem; 3 Elsie Bergen, Gem.

Class 4, Turnips: 1 Mabel Douglas, Gem; 2 Colin Douglas, Gem; 3 Colin Douglas, Gem.

Class 5, Mangels: 1 Mabel Douglas; 1 Iris Robinson, Gem; 3 James Spark, Gem; 2 Colin Douglas, Gem; 3 Elsie Bergen, Gem; 3 Peter Hamm, Gem.

Class 6, Cabbage: 1 Jacob Bruck, Gem; 2 Elsie Bergen, Gem; 3 Peter Hamm, Gem.

Class 7, White Potatoes: 1 Edna George, Gem; 2 Alice Fortney, Gem; 3 Burley Miller, Gem.

Class 8, Red Potatoes: 1 Clarence Fortney, Gem; 2 Mabel Douglas, Gem; 3 Mildred Waltemath, Gem.

Class 9, Carrots, non irrigated: 1 Alice Galarneau, Galarneauville, Gem; 2 Colin Douglas, Gem; 3 Elsie Bergen, Gem.

Class 10, Collection of vegetables: 1 Maggie Brucks, Gem; 2 Colin Douglas, Gem; 3 Elsie Bergen, Gem.

## Flowers

Class 11, Antlers: 1 Mabel Douglas, Gem; 2 Peter Hamm, Gem; 3 Elsie Bergen, Gem.

Class 12, Hoses: 1 Mabel Douglas, Gem; 2 Earl Douglas, Gem; 3 Elsie Bergen, Gem.

## Grain

Class 13, Sheaf of wheat: 1 Rosie Scheibner, Gem; 2 Myrtle Pollock, Gem; 3 Gladys Fortney, Gem.

Class 14, Sheaf of oats: 1 Rosie Scheibner, Gem; 2 Myrtle Pollock, Gem; 3 Jacob Bergen, Gem.

Class 15, Sheaf of barley: 1 Rosie Scheibner, Gem; 2 Myrtle Pollock, Gem; 3 Gladys Fortney, Gem.

Class 16, Sheaf of alfalfa: 1 Colin Douglas, Gem; 2 Earl Douglas, Gem; 3 Mabel Douglas, Gem.

Class 17, Quat, threshed wheat, irrigated: 1 Clarence Fortney, Gem; 2 Myrtle Pollock, Gem; 3 Jacob Bergen, Gem.

Class 18, Quat threshed wheat, non-irrigated: 1 Buckley Miller, Gem; 2 Myrtle Pollock, Gem; 3 Gladys Fortney, Gem.

Class 19, Quat threshed oats: 1 Myrtle Pollock, Gem; 2 Gladys Fortney, Gem; 3 Gladys Fortney, Gem.

Class 20, Quat threshed barley: 1 Myrtle Pollock, Gem; 2 Gladys Fortney, Gem; 3 Gladys Fortney, Gem.

Class 21, Corn: 1 Margaret Brucks, Gem; 2 Jacob Brucks, Gem; 3 Mildred Waltemath, Gem.

## Live Stock

Class 22, Grade beef heifer or steer: 1 Gordon Douglas, Gem; 2 Ralph Waltemath, Gem; 3 Gladys Fortney, Gem.

Class 23, Pure bred beef heifer: 1 Myrtle Pollock, Gem; 2 Gladys Fortney, Gem; 3 Gladys Fortney, Gem.

Class 24, Grade dairy heifer: 1 Jim Spark, Gem; 2 Lawrence Scheibner, Gem; 3 Clarence Scheibner, Gem.

Class 25, Pure bred dairy heifer: 1 Winifred Martin, Gem; 2 Gladys Fortney, Gem; 3 Gladys Fortney, Gem.

Class 26, Pure bred dairy heifer: 1 Winifred Martin, Gem; 2 Gladys Fortney, Gem; 3 Gladys Fortney, Gem.

Class 27, Pure bred dairy heifer: 1 Winifred Martin, Gem; 2 Gladys Fortney, Gem; 3 Gladys Fortney, Gem.

Class 28, Pure bred dairy heifer: 1 Winifred Martin, Gem; 2 Gladys Fortney, Gem; 3 Gladys Fortney, Gem.

Class 29, Pure bred dairy heifer: 1 Winifred Martin, Gem; 2 Gladys Fortney, Gem; 3 Gladys Fortney, Gem.

Class 30, Pure bred dairy heifer: 1 Winifred Martin, Gem; 2 Gladys Fortney, Gem; 3 Gladys Fortney, Gem.

Class 31, Pure bred dairy heifer: 1 Winifred Martin, Gem; 2 Gladys Fortney, Gem; 3 Gladys Fortney, Gem.

Class 32, Pure bred dairy heifer: 1 Winifred Martin, Gem; 2 Gladys Fortney, Gem; 3 Gladys Fortney, Gem.

Class 33, Pure bred dairy heifer: 1 Winifred Martin, Gem; 2 Gladys Fortney, Gem; 3 Gladys Fortney, Gem.

Class 34, Pure bred dairy heifer: 1 Winifred Martin, Gem; 2 Gladys Fortney, Gem; 3 Gladys Fortney, Gem.

Class 35, Pure bred dairy heifer: 1 Winifred Martin, Gem; 2 Gladys Fortney, Gem; 3 Gladys Fortney, Gem.

Class 36, Pure bred dairy heifer: 1 Winifred Martin, Gem; 2 Gladys Fortney, Gem; 3 Gladys Fortney, Gem.

Class 37, Pure bred dairy heifer: 1 Winifred Martin, Gem; 2 Gladys Fortney, Gem; 3 Gladys Fortney, Gem.

Class 38, Pure bred dairy heifer: 1 Winifred Martin, Gem; 2 Gladys Fortney, Gem; 3 Gladys Fortney, Gem.

Class 39, Pure bred dairy heifer: 1 Winifred Martin, Gem; 2 Gladys Fortney, Gem; 3 Gladys Fortney, Gem.

Class 40, Pure bred dairy heifer: 1 Winifred Martin, Gem; 2 Gladys Fortney, Gem; 3 Gladys Fortney, Gem.

Class 41, Pure bred dairy heifer: 1 Winifred Martin, Gem; 2 Gladys Fortney, Gem; 3 Gladys Fortney, Gem.

Class 42, Pure bred dairy heifer: 1 Winifred Martin, Gem; 2 Gladys Fortney, Gem; 3 Gladys Fortney, Gem.

Class 43, Pure bred dairy heifer: 1 Winifred Martin, Gem; 2 Gladys Fortney, Gem; 3 Gladys Fortney, Gem.

Class 44, Pure bred dairy heifer: 1 Winifred Martin, Gem; 2 Gladys Fortney, Gem; 3 Gladys Fortney, Gem.

Class 45, Pure bred dairy heifer: 1 Winifred Martin, Gem; 2 Gladys Fortney, Gem; 3 Gladys Fortney, Gem.

Class 46, Pure bred dairy heifer: 1 Winifred Martin, Gem; 2 Gladys Fortney, Gem; 3 Gladys Fortney, Gem.

Class 47, Pure bred dairy heifer: 1 Winifred Martin, Gem; 2 Gladys Fortney, Gem; 3 Gladys Fortney, Gem.

Class 48, Pure bred dairy heifer: 1 Winifred Martin, Gem; 2 Gladys Fortney, Gem; 3 Gladys Fortney, Gem.

Class 49, Pure bred dairy heifer: 1 Winifred Martin, Gem; 2 Gladys Fortney, Gem; 3 Gladys Fortney, Gem.

Class 50, Pure bred dairy heifer: 1 Winifred Martin, Gem; 2 Gladys Fortney, Gem; 3 Gladys Fortney, Gem.

Class 51, Pure bred dairy heifer: 1 Winifred Martin, Gem; 2 Gladys Fortney, Gem; 3 Gladys Fortney, Gem.

Class 52, Pure bred dairy heifer: 1 Winifred Martin, Gem; 2 Gladys Fortney, Gem; 3 Gladys Fortney, Gem.

Class 53, Pure bred dairy heifer: 1 Winifred Martin, Gem; 2 Gladys Fortney, Gem; 3 Gladys Fortney, Gem.

Class 54, Pure bred dairy heifer: 1 Winifred Martin, Gem; 2 Gladys Fortney, Gem; 3 Gladys Fortney, Gem.

Class 55, Pure bred dairy heifer: 1 Winifred Martin, Gem; 2 Gladys Fortney, Gem; 3 Gladys Fortney, Gem.

Class 56, School lunch: 1 Rosie Scheibner, Gem; 2 Johanna Knorr, Gem; 3 Margaret MacLeod, Gem.

Class 57, Collection of canning: 1 Myrtle Pollock, Gem; 2 Margaret MacLeod, Gem; 3 Phyllis Martin, Gem.

Class 58, Quat threshed wheat, irrigated: 1 Myrtle Pollock, Gem; 2 Gladys Fortney, Gem; 3 Gladys Fortney, Gem.

Class 59, Quat threshed wheat, non-irrigated: 1 Myrtle Pollock, Gem; 2 Gladys Fortney, Gem; 3 Gladys Fortney, Gem.

Class 60, Quat threshed oats: 1 Myrtle Pollock, Gem; 2 Gladys Fortney, Gem; 3 Gladys Fortney, Gem.

Class 61, Quat threshed barley: 1 Myrtle Pollock, Gem; 2 Gladys Fortney, Gem; 3 Gladys Fortney, Gem.

Class 62, Corn: 1 Margaret Brucks, Gem; 2 Jacob Brucks, Gem; 3 Mildred Waltemath, Gem.

Class 63, Grade beef heifer or steer: 1 Gordon Douglas, Gem; 2 Ralph Waltemath, Gem; 3 Gladys Fortney, Gem.

Class 64, Pure bred beef heifer: 1 Myrtle Pollock, Gem; 2 Gladys Fortney, Gem; 3 Gladys Fortney, Gem.

Class 65, Grade dairy heifer: 1 Jim Spark, Gem; 2 Lawrence Scheibner, Gem; 3 Clarence Scheibner, Gem.

Class 66, Pure bred dairy heifer: 1 Winifred Martin, Gem; 2 Gladys Fortney, Gem; 3 Gladys Fortney, Gem.

Class 140, Corn: 1 Margaret Brucks, Gem; 2 Jacob Brucks

## Vision of Mineral Wealth of Western Provinces Is Seen From Initial Development

Speaking of the immense possibilities of the northern parts of the provinces of Quebec, Ontario, Manitoba and Saskatchewan in the production of mineral wealth, Dr. C. V. Corliss, in an address to the Winnipeg Board of Trade, recently stated that Canada would never be appreciated until the people were able to turn their eyes to the north, for it is there that they will find the largest quantities of that without which the progress of civilization would be easily hampered, if not halted altogether, namely minerals.

Minerals form the basis of progress today, for the material side of our modern scientific civilization depends for its progress on man's increasing knowledge of the earth and its resources. And so the strength and economic success of modern nations are largely conditioned on their successful exploitation of mineral wealth.

The world's growth in population may be controlled by its biotic resources, man must feed and clothe himself before he may advance, but its material progress is measured rather by man's growing success in shaping its mineral resources into forms to suit his own purpose.

With the opening of the vast mineral-producing areas in the northern part of Manitoba and Saskatchewan, though the work has only been begun, comes a partial realization of the potential wealth and the riches of these two provinces in districts hitherto thought to be of little value beyond the timber and furs.

The discovery of the great mineral-bearing formations in the rock gives promise of another mining area such as has been developed in Northern Ontario.

Nothing could bring greater benefit to the agricultural industry of the West than the development of a flourishing mineral industry, with its large sums of circulating capital, energizing the economic system in all directions. Such a development would provide a ready nearby demand for the products of the farmer, who is now so seriously hampered both by the remoteness of his market and by the limited variety of those products which can stand the present long transportation cost.

Not would anything quicken the activities of western towns and cities more than the opportunity to supply the many other needs of a flourishing mineral industry and of its numerous workmen and staffs, who unlike the farmer must purchase the hundred per cent of their daily needs.

This country's greatest economic need today is more balanced industries, the creation of internal exchange of goods by the development of more varied industries, a happy condition which will never be fully enjoyed until there is a major and long chain of industries having their starting point in the minerals of the Canadian north.

As to the case of Northern Ontario, some of whose greatest mineral deposits were discovered only when the railroad was built through, the wilderness railway system in the northern parts of Manitoba and Saskatchewan is leading to the discovery of still further deposits of potential wealth, some of which are already being converted into actual cash by those in charge of the development. Then, too, the more the lines of steel are pushed ahead in this country, the more of it is made readily accessible to the prospector and still more accessible to that just as important person, or persons, the promoter who develops what the prospector has found.

Before the end of 1928 an eighty-mile branch railway, which was essential for the development of the area, was completed from the Hudson Bay Railway. The mine plant under course of construction and

which will take about four years to complete, will include flotation mill with cyanide annex, copper smelter and electrolytic zinc plant. It is expected to mine and treat 3,000 tons of ore a day. Hydro-electric plants and transmission lines will also be erected and it has been announced that the Island Falls site on Churchill River will be utilized.

In 1915 on the west-most arm of Schist Lake, about four miles south-east of Flin Flin Lake, another discovery was made. A year later diamond drilling disclosed an ore body of about 25,000 tons of massive chalcite-pyrite, averaging about 20 per cent copper with additional values of \$3 a ton, and about 180,000 tons of lower grade copper-zinc sulphide ore. Very soon after its discovery, this property was taken over by a company. During the war years this company took advantage of the high price of copper and the richest part of the ore was accordingly mined out and shipped to smelter at Trail, British Columbia, for treatment. Although involving unusual transportation costs, 25,000 tons were moved from 1917 to 1920 inclusive. The value of this copper exceeded \$27,000,000, and the recovered gold value approached a large figure.

Prospectors in 1914, working eastward from Flin Flin, and toward from Hudson Bay Railway, found many indications of free gold in quartz veins occurring on the shore of Velasko Lake, a company as Herb Lake. Hundreds of claims were staked and considerable development work has been done. Number of companies were formed.

Many important discoveries of minerals in all parts of the great north have followed the opening of the prospectors and scarcely a day goes by without a new discovery. One of the biggest, or possibly the biggest one yet found, is the Sherritt-Gordon copper-zinc deposit on Cold Lake, otherwise known as the Sherritt-Gordon mine, a north-east of Flin Flin Lake. Development to date has definitely placed this property in the big mine class and an official of the Flin Flin branch railway is expected to be constructed during this year from Cranberry Portage to the mine, a distance of about forty-two miles. Arrangements for the construction of a 1,500 ton concentrator were recently announced which, if completed, will be ready for operation by January, 1931. Production from the Sherritt-Gordon mine is a matter of time, a strong company having been formed to carry out the development.

So the justified rush to the North has opened up an area which seeks the hand of friendship from the South.

### Will Develop Amber Deposits

Amber and Ochre Beds in Northern Manitoba To Be Worked.

A new branch of mining in northern Manitoba is a likelihood next spring with the announcement that a syndicate will develop the ochre and amber deposits at Cedar Lake. The company is known as the Chaurand syndicate, and operations are expected to start this winter.

Staking of properties will be completed by this fall. Adequate finances are in sight for the development. It is stated by officials of the company.

Delay in operations has been caused by the fact that there are no regulations governing the dredging of amber. It is understood that the syndicate is progressing satisfactorily in its negotiations with the local authorities and that dredging licenses will be granted.

Surveys have shown that the material for part of the bed of Cedar Lake is composed of an amber deposit, the result of the decay of an ancient forest. A patent and the work in the United States has been investigating the possibilities of the ochre deposit, and a deal for the sale of the output in northern Manitoba is probable.

"That Kind Of A Loan"  
"A Kachian Movement loan?"  
Questioned a judge in an Irish court.  
"What in the world is that?" "That's what we call some loans in our parts," the witness replied.  
"And the 'I may be for years and it may be for years'?"

Arkansas, Florida, Mississippi and South Carolina are the only four states in the Union without some measure of protection for their workers against industrial accidents.

## Hog Feeding Troughs

### Wooden Troughs Found To Be More Satisfactory Than Metal Or Concrete

Three types of hog troughs have been tried at the experimental farms of the Department of Agriculture at Ottawa. These were made of wood, galvanized iron, and of concrete. The wooden troughs have been found to be the most serviceable and have the further advantage in that they may be constructed at home. The Dominion Animal Husbandman, in his report for 1928, favours the V-shaped trough because it is more resistant than other shapes to hard usage, and it is simply made. The two sides are nailed together in the shape of a "V" and the ends nailed on. These ends, it is recommended, should be extended at least twelve inches beyond the edge or lip of the trough in order to make it more stable and less easily tipped over by the hogs when feeding. Pine spruce, hemlock, or other similar woods are suitable. The material should be two inches in thickness and eight or ten inches wide for most feeding purposes. The upper edges of the finished trough should be sheathed with galvanized iron to protect them against the chewing of the hogs. These troughs should not be nailed down but left so that they can be moved from place to place and easily cleaned when necessary. Galvanized or other metal troughs are more easily broken and they are more difficult to clean than a wooden trough. When these troughs are installed the Dominion Animal Husbandman recommends that the bottom of the trough be slightly above the level of the ground. To facilitate the cleaning of the permanent trough drainage hole should be left in one end and a wooden plug inserted in it. The wooden trough has the further advantage over the cement or metal trough in that the feed does not chill so quickly in it during the cold weather.

An Elastic Chimney  
Strange Phenomenon Has Twice Alarmed People In Paris

A rare and somewhat alarming phenomenon has been observed at a shoe factory on the outskirts of Paris. The tall chimney of this factory took fire and gradually leaned over the buildings until it was about two feet on of perpendicular. There was a panic in the workshops, all of which were evacuated pending the arrival of firemen and architects attached to the Prefecture of Police. The fire was promptly quenched, and then, to the general astonishment, the chimney resumed its proper position, like a tree recovering from a sudden blast of wind. An examination of the structure has shown that it is perfectly sound with the exception of a few burnt bricks, which are to be replaced. This elastic chimney, which is now fifty years old, has a similar scare some years ago, but afterwards appeared none the worse.

## Win Scholarships

### Canadian Pacific Railway scholarships covering five years' tuition at McGill University, have been awarded to C. P. Burdett (left), son of E. P. Burdett, assistant general passenger agent, and William P. Dunlop, son of John Dunlop, in the pension department of the railway. These young men have both done brilliant work in their respective school careers and closed them by making the highest average in the matriculation examination for entrance to the university. As minor sons of C.P.R. employees they won the right to the scholarships awarded them.

Demonstrates "Safety-Plane"  
New Autogiro Makes Perfect Landing In Series Of Tests

Dropping from the skies in an almost vertical position and landing as gently as a feather floating to earth, the new autogiro "safety plane," of the Spanish inventor, Juan de la Cierva, was put through a series of successful tests at Philadelphia. The pilot made half-dozen trips and each time came down almost perfectly within a few feet of the point from which he started. This demonstrating, he said, the ability of the plane to land safely if the motor should suddenly go "dead" while the plane was in flight.

Make ox and reindeer can live in the same area without interfering with each other's food supply, because the food eaten by one is avoided by the other.

## Shipping Eggs Via Panama

### First Shipment From British Columbia Was Very Successful

The success attending a small trial shipment of British Columbia eggs to Great Britain last year will result in much larger exports being made this season. Some 15,000 cases have already been booked, and 8,000 cases were packed to leave Vancouver on the Dominion Line "Grecalia," via the Panama Canal. W. H. Auld, chief egg inspector of the Dominion Poultry Branch, who visited Vancouver in connection with the shipments by this route, predicts that as a result of the establishment of the British Columbia Egg Pool shipments will shortly assume considerable volume.

## Regular Service To Be Established In Northern Alberta

### A notable extension to Canada's rapidly growing air mail service will go into operation early in November, when regular air mail service will be inaugurated by Postmaster P. J. Veno, between Fort McMurray, Alberta, and Alkali Lake, N.W.T., near the mouth of the MacKenzie River.

This route, which will almost parallel the historic fur traders' trail for nearly 2,000 miles north and northeast, along the Athabasca, Slave and Mackenzie Rivers, penetrates farther north than any other regular air mail service in the world and will be the most important region of Canada's vast north land close to the main arteries of traffic, also greatly increasing the frequency of communication. The winter transportation difficulties in this area have been such that it has been necessary to depend chiefly upon dog teams for mail services. The coming of the mail "plane" reduces day to day and confers an instantaneous benefit on the inhabitants. There will be 14 points of call on the route, including Fort Resolution, Fort Providence, Fort Good Hope and Alkali Lake.

## Sweep Of Prizes

### Carload Of Manitoba Livestock Sets a Record At Western Fairs

The greatest sweep of prizes ever made by a carload of livestock from Manitoba, is the record set by Alex McMichael and Herb Clark, of Brandon, in their showing of swine over the Western Canada circuit of exhibitions. Concluding their trip at Regina, the local exhibitors found themselves in possession of 83 firsts, thirty-three animals were included in their showing, and at Calgary, Edmonton, Saskatoon, Regina, and Brandon, they met keen competition but were successful in practically every event they entered.

## A Lonely Town

### The loneliest village in England is in Oxfordshire. This town is only five miles from Oxford, yet its only agricultural inhabitants have never seen a train and have never sampled a trotting trip into London. Because of its isolation, supplies sent to the local villagers must come from the nearest town.

## Planning Another Flight

### Another Graf Zeppelin, built to "Angebot" in 1928, is planned for October, according to Dr. A. F. Zisch, director of the Zeppelin Works, despatched to the Telegraph. The despatch stated that the great dirigible was expected to return to Friedrichshafen in May 1930.

"He: 'Don't go. You are leaving me entirely without reason.'"  
"She: 'I always leave things as I find them.'"  
"And then?"  
"Do people often fall down like this?"  
"No, sir, never more than once."  
"Ludwig Kaiser, Stuttgart, Cologne."

## Plans Being Formulated For Canada's Participation In The Antwerp International Exhibition

## Canada Urged To Look After Forests

Method Is Criticized By Editor Of Empire Journal

A strong indictment of the forestry method used in Canada is made in an issue of the "Empire Forestry Journal" by Fraser Fraser, the editor. After referring to the over-growing needs of the Empire for soft woods, the writer points out the magnificent white pine forests of Eastern Canada are gone and the lumber industry is now concentrating on the great forests of the West.

"The treatment of old stands and the neglect of young growth, in spite of the efforts of the forestry service, the absence of care in the attraction of produce and the small percentage of waste coming as a shock to European forestry," he writes.

"Generally speaking," he continues, "no effort is made to reseed cleared areas with profitable species. During logging operations all valuable conifers are removed while the nearly always breaks out in the debris and burns away that remains."

"Valuable coniferous forests are succeeded by practically worthless trees, which are in their nature, what makes matters worse is the fact that as the young trees grow up they are cut down young trees for quick sale."

"The lack of regard for future crops seems to be principally due to the thoughtless manner in which all the available timber is cut down. It is a sad state of affairs, and it is a pity that as a result of the establishment of the British Columbia Egg Pool shipments will shortly assume considerable volume."

## Air Mail For North

### Regular Service To Be Established In Northern Alberta

A notable extension to Canada's rapidly growing air mail service will go into operation early in November, when regular air mail service will be inaugurated by Postmaster P. J. Veno, between Fort McMurray, Alberta, and Alkali Lake, N.W.T., near the mouth of the MacKenzie River.

This route, which will almost parallel the historic fur traders' trail for nearly 2,000 miles north and northeast, along the Athabasca, Slave and Mackenzie Rivers, penetrates farther north than any other regular air mail service in the world and will be the most important region of Canada's vast north land close to the main arteries of traffic, also greatly increasing the frequency of communication. The winter transportation difficulties in this area have been such that it has been necessary to depend chiefly upon dog teams for mail services. The coming of the mail "plane" reduces day to day and confers an instantaneous benefit on the inhabitants. There will be 14 points of call on the route, including Fort Resolution, Fort Providence, Fort Good Hope and Alkali Lake.

## Great Demand At Vergerville Hatcheries For Baby Chicks

### Ninety thousand baby chicks were sold from the Alberta, Hatcheries, Ltd., at Vergerville this year, all of them from eggs selected from the best flocks of the hatcheries. This enterprise was started on capital supplied by about twenty local men and is a purely commercial enterprise. In addition to the chicks brought in, baby chicks from British Columbia to the order of the hatcheries. The capacity of the hatcheries is greater than the 90,000 produced this year and with the perfecting of one of their incubators, a home-made product with a 100,000 egg capacity, and the development of their markets, it is probable that the business will develop greatly during the next season.

At present in addition to the 100,000-egg incubator, there is also a 15,000-egg electric incubator. Will J. Gould is operator and manager and the district agriculturist P. H. Newcomb has been an active agent from the beginning of the enterprise.

The scheme started as a result of observations in a position of highest standards in judging birds and an increasing feeling that the poultry business should be raised to a more businesslike proportion. In addition to proper place in farm activities. This could not be done until farm flocks were increased in number and improved in quality. There was little incentive to do this with a standard of perfection as one objective and standard of production as a counter objective or basis.

## China Planning Gunboats

### The Chinese, Shanghai correspondent in London, reports that British firms are negotiating with the Chinese Government for the construction of gunboats, costing several millions of dollars. Although the negotiations have not been completed, it has been arranged for the Chinese to receive instruction in naval architecture.

The Chinese, Shanghai correspondent in London, reports that British firms are negotiating with the Chinese Government for the construction of gunboats, costing several millions of dollars. Although the negotiations have not been completed, it has been arranged for the Chinese to receive instruction in naval architecture.

## How To Order Patterns

### Address—Wholesale Newspaper Union, 175 McDermott Ave., Winnipeg

Pattern No. 289—New Elegance. This style is designed in sizes 8, 10, 12, 14, 16, 18, 20 years. Bust requires 2 1/2 yards of material with 4 1/2 yards of 40-inch material and 4 yards of 40-inch contrasting and 4 yards of 40-inch binding.

Pattern No. 289—Flattering Neckline. This style is designed in sizes 16, 18, 20 years. Bust requires 2 1/2 yards of material with 4 1/2 yards of 40-inch material and 4 yards of 40-inch contrasting and 4 yards of 40-inch binding.

Pattern No. 289—Graduation Dress. This style is designed in sizes 8, 10, 12, 14, 16, 18, 20 years. Bust requires 2 1/2 yards of material with 4 1/2 yards of 40-inch material and 4 yards of 40-inch contrasting and 4 yards of 40-inch binding.

Pattern No. 289—Attractive Junior Frock. This style is designed in sizes 8, 10, 12, 14, 16, 18, 20 years. Bust requires 2 1/2 yards of material with 4 1/2 yards of 40-inch material and 4 yards of 40-inch contrasting and 4 yards of 40-inch binding.

Pattern No. 289—Smart Apron and Cap. This style is designed in sizes 8, 10, 12, 14, 16, 18, 20 years. Bust requires 2 1/2 yards of material with 4 1/2 yards of 40-inch material and 4 yards of 40-inch contrasting and 4 yards of 40-inch binding.

## Local News

Burton Ford was home from Calgary over last week-end.

W. Woodward, of Duchess, was a visitor in Bassano Thursday.

Bert Parillon was in Reddick last week on a business trip.

Mr. and Mrs. Jack Ogilvie were in town on Wednesday from the ranch on the Red Deer river.

Mr. and Mrs. M. R. Milroy and Mrs. Jas. Stinson made a motor trip to Turner Valley last Wednesday.

C. W. Atkin, of Winnipeg, formerly of Bassano, passed through town last Tuesday on his way west.

Mr. and Mrs. T. MacDonald and children, have moved to Drumheller where they will make their home.

Mr. and Mrs. E. A. Beck returned home Tuesday from their trip to Montreal.

A daughter was born to Mr. and Mrs. A. F. MacCallum, of Gleichen, on Friday, October 4th.

CHURCH Clark, of Calgary, a former Majorville farmer, is in Bassano this week visiting friends.

Joe Wogman was in town for a couple of days last week. He has just returned from a trip to New York City.

D. S. Mitchell, accountant in the Canadian Bank of Commerce, is being transferred to the bank's Calgary office.

Mrs. M. Horne and children have moved in from Glen, and are occupying the house next door to E. A. Beck's on the west.

Dr. and Mrs. A. G. Scott and Mr. and Mrs. W. E. Sambrook attended the aero meet in Calgary last Saturday.

H. A. Holmes and his crew of harvesters are doing some building at Glen, Graves farm in the Majorville district.

Miss Beatrice Leonard is leaving the latter part of this month for Chicago where she will complete her training in the Jackson Park Hospital.

Rev. F. C. McCrae motored to Crossfield on Wednesday to bring back Mrs. McCrae and children who have been visiting there for the past few weeks.

Perry Johnson and Albert Cadot, who mysteriously left town a couple of weeks ago, have turned up at the Pacific coast. They are now at Esquimalt, and intend joining the navy.

The season for hunting Hungarian partridge opened last Tuesday, Oct. 1st. The little Hungarians are fairly plentiful around Bassano, and local hunters report getting some fine bags.

A whist drive and dance will be held by the members of St. Columba's Church on Friday, October 13, in the Masonic Community Hall. A prize will be given to the holder of the lucky ticket.

John Wallace, who moved to Tilley this spring, was a business visitor in Bassano on Thursday. Mr. Wallace managed the White Farm for several years. He is now in charge of the big C. P. R. farm at Tilley, east of Brooks.

D. E. McDonald, inspector of buildings for the provincial Department of Public Works, was in Bassano Tuesday looking over the new premises for the government vendor's store.

## MARCELLING AND BEAUTY CULTURE

I am now prepared to do marcelling, etc. For appointment phone 148, Bassano.

Mrs. M. HORNE 13-14p

## HEFTY HAILSTONES

How big do hailstones grow? In 1847 hailstones that measured 14 inches, in circumference are said to have fallen in New South Wales. Others weighing four and a half pounds were reported after a storm at Canoria, Spain, in June 1889. Thousands of balls of ice each as large or larger than an orange, fell at Dallas, Texas, causing nearly five hundred thousand dollars worth of damage. The most amazing report of such a bombardment from the skies comes from Cote, France. In October, 1844, such large hailstones are said to have fallen that they wrecked dwellings and sank vessels anchored in shore. The formation of "large hailstones" begins at heights estimated at between 15,000 feet and 40,000 feet above the ground.

## GOVERNMENT LIQUOR CONTROL ACT OF ALBERTA

## Application For Beer License

PUBLIC NOTICE IS HEREBY GIVEN that the undersigned intends applying to The Alberta Liquor Control Board for a License to sell beer by the glass or open bottle for consumption in conformity with the provisions of The Government Liquor Control Act of Alberta and the Regulations made thereunder with respect to the following premises:

That portion of THE HUNTER HOTEL, situate and having its entrance on and extending 42 feet southwards from the building line of the said Hotel on the south side of Second Avenue in the Town of Bassano, in the Province of Alberta, and erected on the north westerly 22 feet of Lot 2, in Block 4, Plan 2875, Bassano.

DATED at Bassano, Alberta, this 1st day of October, A. D. 1933.

MAUDE P. BIRNIE, Applicant.

13-14c

FOR SALE—Brunswick Panatone 1928 model second hand. Apply to P. O. box 241, Bassano. 13-14c

FOR RENT—Three rooms, close to Bassano school. Apply to Bert Parillon, P. O. box 260, Bassano. 13-14p

Also a Few Collectors at the Door  
Teacher: "Tommy, if your father could save one dollar a week for four weeks, what would he have?"  
Modern Child (promptly): "A radio, an electric refrigerator, a new suit, and a lot more furniture."

## A SCOURGE

Eastern Ontario is fighting the scourge of youth, acute poliomyelitis (infantile paralysis), and both Ottawa and Toronto have had a large number of cases, the majority of the patients being children. Quite a few deaths have occurred.

This is the season for infantile paralysis. There have been a few cases in Alberta within the past month. Now that the children have returned to school there is daily contact, especially in this so in country schools where during the vacation period children are usually widely separated.

If a child exhibits signs of sickness, i. e., fever, running nose, loss of appetite, irritability when touched, he should be isolated for twenty-four hours. In that time, whatever disease is incubating will develop. On no account should other children be allowed in contact. The symptoms may develop nothing worse than a bad cold, or it may be measles or scarlet fever, or again it might be infantile paralysis. If at the end of twenty-four hours the child is still sick, a doctor should be called. Where the whole future of the child may be concerned, it is criminal to run the smallest risk.

Pamphlets on infantile paralysis may be had free from the Canadian Red Cross Society, 407 Civic Block, Edmonton, Alta.

CONFESSIONS TO MURDER  
BUT IN PRISON BY JURY

Albert Lord, 59 years old, chief clerk, was discharged from the Bow Street Police Court in London after he had confessed to murder.

The case was described by the presiding magistrate, Sir Charles B. Brown, as without parallel in the record of English law.

Lord walked into a London police station recently, and told a frank story of murdering an unknown woman by throwing her over the parapets of Waterloo bridge into the Thames. He was bound over, and later formally charged with murder on his own confession, after alterations had examined him and found him perfectly sane.

"In this case there is no evidence to connect Lord with any crime except his own statement," the public prosecutor admitted.

The magistrate, Sir Charles, said, "I cannot remember any case, and I cannot find any reported, in which I have seen evidence of murder has been the prisoner's own statement." The prisoner was then discharged.

"I am paying my first official visit to Canada as Chief of the Salvation Army and while here I hope to meet at the three annual gatherings to be held in the Dominion every officer of the Salvation Army in Canada, and Newfoundland," said General E. J. Higgins, newly elected head of the Salvation Army, who arrived at Quebec recently on board S.S. Empress of Australia.

More than 265 miles of new rail lines in western Canada, will have been completed and turned over to the operating department of the Canadian Pacific Railway in the period between June 15 and September 15 of this year, is the statement made recently by D. C. Coleman, vice-president of western lines of the system. This mileage does not include Mr. Coleman added, a further 170 miles of lines under construction as at September 6.

Inauguration of 1,250 miles of air mail services on the Prairies is expected about October 1. Haines Winnipeg, with "cameros, Alts, and thereby saving a day's time between the points.

The Peace River country was invaded by the most important group of visitors ever to penetrate its territory on September 5, when 200 members of the 1925 convention party of the Canadian Chamber of Commerce left Edmonton in three trains for a four day's sojourn in that section. The party was joined later by 50 delegates to the 14th annual convention of the Vancouver Board of Trade.

## I Didn't Know That

But her friend knew. For she had read all about it in the newspaper advertisement. And when the new goods arrived she was among the first to view them, and she made her choice from the complete selection.

This woman knows how to shop. By reading the newspaper advertisements she keeps well informed on the trend of style and what is new, chic, and up-to-date. And she gets full value for every dollar that she spends.

Getting a STRANGLE HOLD on that MORTGAGE

THERE were long, lean years for "Mortgage" and Mother—before success began to come.

Her hair is grey now—and you are no longer young.

But you dream of leaving a mortgage-free homestead for Bobby, without the hardships you went through.

Yet you realize the Risk—the sleepless mortgage that still grips your broad acres.

It's THAT that wakes you in the night the haunting fear that even after your long fight (should death come) your family might not be able to lift that mortgage—might lose the farm and make all the accumulated labor,

deprivations, economies and money investments of many years—a vain effort.

When you placed that mortgage on the farm did you assure your life for at least a corresponding amount, payable when the loan had to be repaid, or at death?

If you didn't you only added to the anxieties of your widow and family.

Afraid you couldn't pay the premium on the policy? Could your widow pay the interest and maintain the sinking fund on the mortgage?

Don't continue that Risk—cover the mortgage with a life assurance policy that will discharge it—and leave a balance, payable monthly, for current expenses.

See the Sun Life representative. It will entail no obligation on you.

**SUN LIFE ASSURANCE COMPANY OF CANADA**

The Singing Fool

by HUBERT DAILEY

Copyright, 1935, by Music Publishers, Inc.

Al Stone, singing waiter at Blackie Joe's New York night club, finds fame on Broadway as a composer of popular songs. He marries Molly Winston, a ballet singer, and makes her famous. Too, Molly and Al have a baby, Junior, whom Al interested in John Perry. Al's friends, and Perry begs her to leave Al. On the third anniversary of the marriage Al takes Molly home from the Club Bongo, where he is part owner. She is moody; the jealousy bothers her because of her relationship with Perry. She is jealous when Al goes to the nursery and she sees how he loves Junior. Later, in a burst of love, she tells Al she doesn't love him any more. As Al recoils, Molly turns Junior calling her.

CHAPTER XV

Junior had awakened to find that his toy, his woolly dog, had dropped dead. So he was calling to Molly to come and get it for him. As his high-chained giggle drifted through the rooms to Molly and Al, they gave a start. The expression of Al's face softened in an instant. Molly's remained the same as she looked by Al to look after Junior. Al turned, looking after her retreating figure, still in a daze from her harsh words. He had lost her, she actually said so herself. Her words and the heart-breaking scene he had just passed through seemed fantastic and unreal to him. He was so dazed that he did not understand and her scorn?

Then, like a man in a dream, he followed her toward the nursery. Standing in the doorway, he saw her pick up Junior's woolly dog from the floor, replace it in the child's arms, and carefully tickle him.

"Go to sleep, now, Junior. Then Mamma can sleep too."

How strangely comforting was that soothing voice to the tone Molly had just used in addressing Al. And how kind the expression on Molly's profile as she bent over Junior's bed! Surely this was not the end, thought Al. He suddenly remembered that he would not let her life together be blasted by her whim; he would fight to awaken Molly's love.

As Molly came toward him, he raised his hand with an apologetic gesture. "Darling, don't we talk this way? If I've done anything to you—"

"No—no more talk!" Molly panned him, entering her bedroom. He heard her door close with a snap of the latch.

But now Junior was sitting up, holding out his arms to his father. "Paddy, please sing me to sleep."

Al came forward, sitting, picking up Junior, holding him close as if to drive away the wound Molly had inflicted. Here, at any rate, he was someone who loved him, trusted him, and always greeted him with the same adoring, happy smile. He was mounted on his knees and couldn't speak. Then he said huskily:

"What do you want me to sing, baby?"

"You know," whispered Junior, mendingly, "that one about a little like me."

"Little Feller?"

"Yes, that one."

Slowly Al began to sing, rocking gently to and fro. There was only an audience of one to hear—and that was a very happy audience.

Fletcher's

ASTORIA

FOR QUICK, HARMLESS CURE OF CHILDREN CRY FOR IT

W. N. R. 1850

The solutions are gaudy, and the money dance. All this, he hoped desperately, would influence Molly. The orchestra was playing with slight variations. When Al heard the couples swayed and danced and called to one another.

"Choose a partner yourself!" cried Al in a passing, clapping. A girl the shoulder. Al laughed in answer, but a moment later he moved to stand the lounge room at the end of the main hall.

Perhaps Molly had gone straight home from the theatre—he must have done so. The door suddenly drifted open, allowing a row of happy sounds to enter. Pink light he heard a feminine voice at the other end of the hall. Molly's voice, he thought. He quickly pulled the door shut again and said:

"This 'phone ring was a sort of a joke, with three or four booths. Al entered one, pulling the door shut and colling his apartment number. But the door suddenly drifted open, allowing a row of happy sounds to enter. Pink light he heard a feminine voice at the other end of the hall. Molly's voice, he thought. He quickly pulled the door shut again and said:

"Molly, dearest, I've been holding your cable for you—hoping you'd be here."

But again the door flew open and he missed the answer.

(To Be Continued.)

Intends To Collect Pay

Circus Water Carrier Inherits Fortune

A 21-year-old "big-water" water carrier for a circus playing in Portland, remained at his post under the white poles and refused to leave to accept a \$275,000 inheritance. He is apparently a horse-fatty developed in response to repeated pressure, analogous to that seen on the shoulders of porters. It is situated exactly on the area of the skin which rests on the top of the head.

Excesses and plays a serious cause "bridge" eyes.

When a woman is especially among women. They can read books and papers quite well with their usual glasses but are apt to mistake spades for clubs when glancing at cards thrown flat on the table; so special glasses adapted to the requirements of vision are in London opticians, and are in brick demand among members of West End women's bridge clubs. The deaths of Rudolph Valentino and some other film stars are believed by Dr. Lee, of Florida, and other eminent American doctors, to have been really due to over exposure to actinic rays, aggravated by intense studio lights. "Every film star," he declared, "is in similar danger," and added that the nervous irritability characteristic of many prominent screen actors and actresses was the cumulative results of their exposure to the strong sunshine of the California hills when most outdoor scenes are "shot," and the ultra-violet rays of studio lamps. It is the trying glare of the sunshine, of course, that has formed the mothers' greatest of the spandrels, Portuguese, Southern French, Italians and other Mediterranean people, who have been so long to live in dangerous exposures of uncontrolled sunlight. — London Spectator.

Need Educating

People Across the Line Very Ignorant About Canada

There must be an epidemic of this sort of thing. The other day we received a letter from a man who had come to Halifax, New Brunswick, Canada. Now we have one from New York directed to "Halifax, Manitoba," and another from one of our lettering publications in the United States. Why couldn't the tract society divert their attention, if only for a few days, to the need for geographical education? The ignorance of Canadian geography in other lands is abysmal. — Halifax Herald.

Do not allow worms to sap the vitality of your children. If not attended to, worms may cause irreparable harm to the constitution of the infant. The little sufferer cannot voice their ailment, but there are many signs by which mothers are made aware that the worms of Miller's Worm Powders is necessary. These powders are simple and will expel worms from the system without any inconvenience to the child.

Wanted To Help

A young farmer wanted to sell his farm and was showing it to a prospective buyer. As they went over the house the farmer's little son came to room. He was asked to show the place off to the prospect and in the bathroom he interrupted his father's eulogy on the plumbing to:

"Look, mister! See them nice holes! That's rats."

Says Vancouver Best Outlet

Nothing in Way Of Branch Lines For Peace River District

Describes Beatty

When rail connection is established between the Peace River District and the Pacific coast, it would appear that Vancouver would be the logical point for the outlet on the coast," declared E. W. Beatty, president of the Canadian Pacific Railway, in a statement made at Vancouver Wednesday from Victoria.

Mr. Beatty was non-committal as to when and how rail connection between the coast and the Peace River area should be made. He suggested that coast connection would be the natural consequence of developments in the Peace area, and indicated that it might not be advisable to undertake the great expenditure until the period had arrived when no mistake could be made.

Regarding the Pacific Great Eastern Railway situation, Mr. Beatty said that it would be time enough to discuss that matter when the survey now under way by the provincial government, the Canadian Pacific, and the Canadian National had been completed, and that the directors of the two lines, jointly owned by the Canadian Pacific and the Canadian National, will likely have some announcements to make at the end of the month.

Answering a direct question as to whether there is any obstacle in the way of a branch line from the road here to British Columbia, Beatty said that the Peace River area is in order to give relief to farmers now located from the coast, and that the road is in a position to do so.

He said that he saw no reason why it could not be done.

THE RESPONSIBILITY OF EVERY MOTOR

The child in the home is a never-failing responsibility of the mother. It is the mother's duty to see that the child is properly cared for, and that the child is not neglected. The mother should be the one to see that the child is properly cared for, and that the child is not neglected.

The mother should be the one to see that the child is properly cared for, and that the child is not neglected.

The mother should be the one to see that the child is properly cared for, and that the child is not neglected.

Real Dyes are easier to use

DIAMOND DYES are used by practically the same method as the old dyes. They go on easily, though—more smoothly and evenly; they do not require a mordant, because they are made from real dyes, without a trace of filler, and they are easy to use. They are easy to use. They are easy to use.

Next time you have dying to do, try Diamond Dyes—at our risk. See that they are easy to use. Then compare results. You will surely agree Diamond Dyes are better dyes.

Diamond Dyes are better dyes. They are easy to use. They are easy to use.

Diamond Dyes are better dyes. They are easy to use. They are easy to use.

Diamond Dyes are better dyes. They are easy to use. They are easy to use.

Diamond Dyes are better dyes. They are easy to use. They are easy to use.

Diamond Dyes are better dyes. They are easy to use. They are easy to use.

Diamond Dyes are better dyes. They are easy to use. They are easy to use.
